

**DEPARTMENT OF THE AIR FORCE  
355TH WING (ACC)  
DAVIS-MONTHAN AIR FORCE BASE ARIZONA**

20 February 2024

MEMORANDUM FOR DAVIS-MONTHAN AIR FORCE BASE

FROM: 355 WG/CC

SUBJECT: Wing Environmental Commitment Statement

1. Davis-Monthan Desert Lightning Team is committed to conducting its Rescue and Attack mission in an environmentally responsible manner while protecting and conserving human health, natural resources, and the environment by doing the following:

- a. Set attainable goals to promote conservation of our natural and man-made resources, including our energy and facility footprints.
- b. Train to continuously improve regional environmental and conservation awareness and competency at all levels.
- c. Reduce and prevent pollution at its source, reduce energy consumption, and recycle wherever feasible.
- d. Improve our environmental performance through continuous evaluation of current processes and procedures as they pertain to local, regional environmental concerns.
- e. Know how to make sound environmental decisions in day-to-day operations.
- f. Environmental protection and conservation are primary management responsibilities as well as the responsibility of every Airman.
- g. Strive to achieve or exceed our Environmental Management System objectives; thus, improving our operational readiness and mission capability.

2. Understanding this commitment and compliance with all federal, state, and local regulatory requirements is the responsibility of all Davis-Monthan Desert Lightning Team members and is vital to the installation's continued environmental excellence and mission sustainment. To assist in communicating the installation's environmental commitment, this memorandum or the attached poster should be posted on organizational bulletin boards.

SCOTT C. MILLS, Colonel, USAF  
Commander

RESCUE & ATTACK!

# 355 WING COMMANDER'S ENVIRONMENTAL COMMITMENT POSTER

Davis-Monthan Team's primary responsibility is committed to conducting Rescue and Attack missions in an environmentally responsible manner while protecting its natural resources, and the environment while meeting the following requirements:

**Set** attainable goals to promote conservation of our natural and man-made resources, including our energy and facility footprints.

**Train** to continuously improve environmental and conservation awareness and competency at all levels.

**Reduce** and prevent pollution at its source, reduce energy consumption, and recycle where feasible.

**Improve** our environmental performance through continuous evaluations of current processes they pertain to local, regional environmental concerns.

**Know** how to make sound environmental decisions in day-to-day operations.

**Ensure** environmental protection and conservation are primary management responsibilities as well as the responsibility of every Airman.

**Strive** to achieve or exceed our Environmental Management System objectives; thus, improving our operational readiness and mission capability.

Understanding this vision and compliance with all federal, state, and local regulatory requirements is the responsibility of all Davis-Monthan Desert Lightning Team members and is vital to both the installation's continued environmental excellence and mission sustainment.
